

AIA Chair's Letter to Members

Retirement of John Venn **Director Western Australia**

Dear AIA Members,

It is with some sadness I wish to advise John has decided to retire as a Director of the AIA. John joined this organization in 1992 before becoming a Director in 1994 and working with and representing the Western Australian membership as a Chair of their group.

John in our time was a staunch protector of our constitution and provided valued corporate memory for the Board. His council has always been wise and pertinent.

Our Board and local State Chair's operate voluntarily and in performing that role for 28 years and the many endless hours of work John has earned our admiration and the greatest thanks we could provide.

He leaves at the wonderful age of 83 years to relax and to attend to life's next journey's.

John on behalf of the Board and all our Australian members we thank you and your wife for your wonderful service and wish you both the very best.

My best regards

Peter Dawson

Chair Australian Investors Association
