

CURRENT TRENDS IN THE ETF MARKETS

Australia

Vanguard, as one of the largest Exchange Traded Funds (ETF) providers globally will outline the current trends in the ETF market. This will cover an overview of the differences to what is happening in Australia compared to the US and Asian ETF markets. The session will also cover how investors are using active and/or diversified ETF's in their portfolios.

The session will include an overview of the economic landscape, including Vanguard's view on what the market and economic recovery could look like.

Investors using ETFs or looking to gain an understanding on how best to position ETF's in their portfolio should attend this event.

BEATRICE YEO

Economist, Investment Strategist, Vanguard Australia

Beatrice Yeo is an Economist within Vanguard's Investment Strategy Group and serves on the Global Economics Team in Australia. In this role, she is responsible for contributing to Vanguard's global thought leadership through research on markets, the economy and investment strategies. She previously also held the role of investment strategist focusing on creating multi-asset solutions for the firm's business. Prior to being in Melbourne, Beatrice was based in Vanguard's Hong Kong office, where she covered a range of macro and portfolio construction research topics.

Beatrice holds a BA in Economics and Finance from the University of Melbourne and is a CFA® charterholder.
